Core Expertise: Enterprise AI Implementation • Clinical Informatics • Hospital Medicine • Epic Optimization • Physician Leadership • Quality & Patient Safety • Goals of Care & Hospice Care • Medical Education

PROFESSIONAL EXPERIENCE

UF Health Central Florida

Associate Chief Medical Informatics Officer | May 2023 - March 2026

- Served as a primary physician leader for enterprise-wide implementation of AI-generated patient summaries and hospital discharge summaries across a six-hospital health system, with sites ranging from academic medical centers to community hospitals and involving providers across multiple clinical specialties.
- Beta tested AI-generated patient summaries for clinical accuracy and usability, helping refine source selection, summary content, and wording, including the impact of nursing documentation on generated summaries.
- Partnered with Epic and internal clinical and technical teams through weekly implementation and optimization meetings, providing physician feedback and guiding workflow improvements.
- Led and supported medication reconciliation workflow improvement and the development, review, and optimization of Epic order sets.
- Provided on-site physician informatics support during the St. John's Hospital go-live and contributed physician leadership to Leapfrog testing, quality initiatives, and multidisciplinary hospital committees.

The Villages Health / CenterWell

Hospitalist | May 2020 - July 2026

- Provided inpatient care for medically complex and high-acuity patients across medical-surgical, step-down, and ICU settings.
- Provided inpatient hospice and end-of-life care, including goals-of-care discussions, symptom management, and transitions to comfort-focused care.
- Participated in multidisciplinary rounds (MDR), coordinating care, disposition planning, and safe transitions of care.
- Served on the Credentialing Committee, supporting physician credentialing and medical staff quality standards.
